HOKER-WHAT MR. SHEARMAN ENOWS.

NEW YORK, Aug. 11.—Moulton was at his residence all day yesterday. He refused to say if his statement would be made public to-day, and would not answer any questions on the subject. District Attorney Winslow, Theodore Tilton and Moulton's stenographer were in attendance upon Moulton from an early hour, at thing he did not judge it safe to do.

Moulton was at his house in Remsen street all the evening, but refused an audience with a sund and would not convince her, but would not convince her, but would not convince her, but would not explain without making her his confidant in the whole matter, a thing he did not judge it safe to do.

District Attorney Winslow, in a conversation, said that it was more than probable that the statement would not be ready for publication for a day or two. The committee had to compare the documents contained in it with the statement would not be ready for publication for a day or two. The committee had to the statement concerning Mrs. Hooker which I sent to you, I think I should add the following particulars:

There is one letter of Mr. Beecher to her that needs the light of the surrounding circumstances to explain it. Mr. Beecher's object in the letter was to induce her to quietude, to go know and remain there. It was necessary to compare the documents contained in it with to use motives such as would effect this result to the Appeal from Helena, Arkansas, received at 8:30 this in the letter was to induce her to quietude, to go know and remain there. So many of the original doduments, which he has copies of, and which have been made public, he feels under obligations to place in the hands of the committee if necessary. Moulton has had copies of all these documents made, and he handed these copies to the committee, holding himself ready to produce the originals when the committee desired to verify them. Beyond this Moulton was not willing to make a statement, nor did he feel himself justified, in honor or in conscience, in producing any document save those quoted by Tilton in his statement.

Moulton handed the committee his statement and copies of the documented quoted in Tilton's communication. Moulton was briefly cross-examined, and he maintained the same position. He reiterated what appeared in his statement, that if an attempt was made to assail his position as a friend to both parties, or to question his honor, he might be under the necessity of making a further statement, but for the present he contented himself with furnishing the committee with exact copies of the documents quoted by Mr. Tilton.

Skill further: I have carefully considered what could be done if any attempt were to be made to prove him guilty, and I firmly believe he seven hundred; the whites have about two hundred.
